

## 1815 UMBRELLA HOLDER

Removable umbrella holder for yacht deck in mirror polished 316L stainless steel Ø45 external for flush mount socket, it can accommodate umbrellas up to Ø38 maximum.

The umbrella holder has a release button to easily remove it from the fixing socket and allows 3 locking/unlocking positions where the padlock symbol is engraved. We suggest keeping the umbrella holder mounted on the umbrella for faster use.

- Finish: mirror-polished 316L stainless steel and can be flush-mounted in the deck, available with visible screws (1820/A) or hidden screws (1820/B).
- The socket features a self closing cap: when you pull out the umbrella holder, the socket closes automatically; when you insert the umbrella holder in, the cap disappears inside the socket.
- The bottom part of the socket is available with draining pipe for commercial fittings set up or completely watertight
